Investors' Resolutions for the New Year:

1. *Buy what has value, not what is popular.*
2. *Ignore the media.*
3. *Don't be tempted by lists of "Top 10 Investments".*
4. *Keep your costs low and your returns high.*
5. *Patience pays big rewards.*
6. *Separate emotion from fundamental convictions.*
7. *Market drops bring more attractive prices.*
8. *Good companies aren't always good investments.*
9. *Beware of hot funds. They usually cool off.*

We wish everyone health, happiness, and prosperity in the New Year.
Enjoy the holiday. Now on to 2017!
